Compiled and selected by Judith Tinnes

[Bibliographic Series of Perspectives on Terrorism - BSPT-JT-2017-3]

Abstract

This bibliography contains journal articles, book chapters, books, edited volumes, theses, grey literature, bibliographies and other resources on the Islamic State (IS / ISIS / ISIL / Daesh) and its predecessor organizations. To keep up with the rapid changing political events, more recent publications have been prioritized during the selection process. The literature has been retrieved by manually browsing more than 200 core and periphery sources in the field of Terrorism Studies. Additionally, full-text and reference retrieval systems have been employed to expand the search.

Keywords: bibliography; resources; literature; Islamic State; IS; ISIS; ISIL; Daesh; Al-Qaeda in Iraq; AQI, Syria, Iraq

NB: All websites were last visited on 14.05.2017. This subject bibliography is conceptualized as a multi-part series (for earlier bibliographies, see: Part 1 and Part 2). To avoid duplication, this compilation only includes literature not contained in the previous parts. However, meta-resources, such as bibliographies, were also included in the sequels. – See also Note for the Reader at the end of this literature list.

**Note**

Whenever retrievable, URLs for freely available versions of subscription-based publications have been provided. Thanks to the Open Access movement, self-archiving of publications in institutional repositories or on author homepages for free public use (so-called Green Open Access) has become more common. Please note, that the content of Green Open Access documents is not necessarily identical to the officially published versions (e.g., in case of pre-prints); it might therefore not have passed through all editorial stages publishers employ to ensure quality control (peer review, copy and layout editing etc.). In some cases, articles may only be cited after getting consent by the author(s).
